 Title: **METHOD FOR REGENERATING IRON-LOADED DENOX CATALYSTS**

Address to:  
 Commissioner for Patents  
 P.O. Box 1450  
 Alexandria, VA 22313-1450

**37 CFR 1.97(b)**

1. ☒ The Information Disclosure Statement submitted herewith is being filed within three months of the filing of a national application other than a continued prosecution application under 37 CFR 1.53(d); within three months of the date of entry of the national stage as set forth in 37 CFR 1.491 in an international application; before the mailing of a first Office Action on the merits, or before the mailing of a first Office Action after the filing of a request for continued examination under 37 CFR 1.114.

**37 CFR 1.97(c)**

2. ☐ The Information Disclosure Statement submitted herewith is being filed after the period specified in 37 CFR 1.97(b), provided that the Information Disclosure Statement is filed before the mailing date of a Final Action under 37 CFR 1.113, a Notice of Allowance under 37 CFR 1.311, or an Action that otherwise closes prosecution in the application, and is accompanied by one of:

☐ the statement specified in 37 CFR 1.97(e);

**OR**

☐ the fee set forth in 37 CFR 1.17(p).

## TRANSMITTAL OF INFORMATION DISCLOSURE STATEMENT

November 2, 2005

**STATEMENT REGARDING**  
**NON-ENGLISH REFERENCES CITED IN PTO-1449 FORM**

Hon. Commissioner of Patents  
And Trademarks  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In conjunction with the Information Disclosure Statement, PTO-1449 Form, and copies of references cited therein, we note that five of the documents cited under "Foreign Patent Documents", and supplied, are not in English. One reference, JP 10 156192 A, is supplied with a translation and is cited in the International Search Report issued in PCT international application PCT/EP03/09794, of which this current application is a national stage filing thereof. The International Search Report also indicates this reference's relevance to our claims.

To comply with MPEP 609 for the other four references—DE 43 00 933 C1, DE 198 05 295 A1, EP 0 910 472 B1, and EP 472 853 A1 (labeled References G – J on the PTO-1449 Form)—we note that all are cited in the text of our patent application at page

Statement Regarding Relevance of Non-English References

November 2, 2005

Page 2 of 2

2, lines 11-18 and the relevance of these references is described therein. In particular, all four references teach known methods for the regeneration of denox catalysts that operate with reaction liquids, but which cannot specifically remove iron. Each of these references shows that there was previously no possibility of treating catalytic disturbances in the form of an elevation of the  $\text{SO}_2/\text{SO}_3$  conversion rate due to iron. For instance, DE 43 00 933 describes the removal of metals from denox catalysts while retaining structure and activity is described, in which two different gaseous phases are used; however, this method is not suitable for removing other pollutants from the catalyst.

REMARKS

An early and favorable action on the merits is respectfully requested.

Respectfully submitted,

Marlana K. Titus
